# ABOUT US

## WORLD MARKET LEADER IN STAINLESS STEEL RECYCLING.

CRONIMET Raw Materials GmbH is your long-term partner for metal powders, ferroalloys and metals in a wide range of sizes and specifications. We are located in Karlsruhe and Dortmund, Germany.

Starting in 2026, we will be producing metal and alloy powders as well as cored wires according to your specifications at our site in Dortmund. Furthermore, we can rely on a network of strong partners to serve your needs: fast, flexible, precise and reliable. We are REACH registered for various products and ISO 9001, 14001 and 45001 certified.

Thanks to our global network we can provide you with any volume required of metal powders, ferroalloys and metals. Our focus is on FeNi, FeCr, FeMo, FeTi and FeW. FeMo, FeTi and FeW are produced in-house using the strong global CRONIMET network.

You have questions? We have the answers!
